EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Amendment

1. Applicants' amendment filed on September 13, 2005 has been fully considered and entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert C. Bertin on November 28, 2005.

The application has been amended as follows:

In line 1 of claim 2, please change "the reflecting curved-surface" to "the reflecting curved surface".

In line 2 of claim 2, please change "the focusing spherical surface" to "the focusing curved surface" (in order to give proper antecedent basis for the claimed limitations of claim 2).

In line 2 of claim 3, please change "the divergence angle" to "a divergence angle" (in order to give proper antecedent basis for the claimed limitations of claim 3).

In line 2 of claim 10, please change "the fiber" to "a fiber" (in order to give proper antecedent basis for the claimed limitations of claim 10).

In line 2 of claims 16 and 17, please change "the material" to "a material" (in order to give proper antecedent basis for the claimed limitations of claims 16 and 17).

Reasons for Allowance

3. Claims 1-19 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest an optical assembly for coupling an optical device to an optical receiver comprising a lens including a reflecting curved surface for bending and confining a light beam and a focusing curved surface for focusing the light beam, the lens conveying the light beam by reflection off of the reflecting curved surface and transmission through the focusing curved surface in combination with the other limitations of claim 1.

Claims 2-19 depend from claim 1.

After carefully studying, the examiner agrees with applicants' arguments on page 5 in the remarks that neither Yoshihiro nor Brauss discloses an optical assembly for coupling an optical device to an optical receiver having a lens with special structures as claimed above.

Therefore, claims 1-19 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer Doan whose telephone number is (571) 272-2346. The examiner can normally be reached on Monday to Thursday from 6:00am to 3:30pm, second Friday off.

6. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney Bovernick can be reached on (571) 272-2344. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
